

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – General Chemistry I

<http://www.ltcconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

I. INSTRUCTORS: **Martin Wallace**, M.S. Chemistry & Chemistry Education
(530)541-4660, ext 284; Wallace@LTCC.edu; office: D-105
Millie Oleson, B.S. Chemistry
(530)541-4660, ext 704; Oleson@LTCC.edu

OFFICE HOURS: M & W 10-11am; Tu 2:30-3:30pm; Th 12-1pm, F 1-2pm, *and by appointment*

II. PREREQUISITES: MAT 154 *and* CHM 114 or equivalent (*e.g. high school chem. w/ a "C" or better*)

III. REQUIRED MATERIALS:

TEXT: *Chemistry, 7th ed.*, Zumdahl & Zumdahl,
ISBN 10: 0-618-52844-X ~or~ 0-547-05405-X
ISBN 13: 978-0-618-52844-8 ~or~ 978-0-547-05405-6

LAB MANUAL: *Chemical Principles in the Laboratory, 8th ed.*, © 2005
Slowinski, Wolsey, & Masterton

- ISBN 0-534-42453-8
- about \$110 new; possible "used" copies at lower prices
- available online only (?); not in LTCC bookstore
- good for CHM 101, 102, *and* 103

~or~ *Chemical Principles in the Laboratory, 9th ed.*, © 2009
Slowinski & Wolsey

- ISBN 0-534-42453-8 ~or~ 978-0-495-11288-4
- about \$110 new; "used" copies probably not readily available
- available online and through major booksellers (?)
- good for CHM 101, 102, *and* 103

~or~ *Laboratory Manual General Chemistry CHM 101*, © 2008
Slowinski, Wolsey & Masterton

- ISBN 0-495-83920-5 ~or~ 978-0-495-83920-0
- about \$46 new; "used" copies probably not available
- only available in the LTCC bookstore
- good for *CHM 101 only*

SAFETY GOGGLES: must have (1) indirect venting, and (2) ANSI Z87.1 impact protection
The Uvex "Stealth" (Uvex #S-3960) meets these requirements, is reasonably comfortable and durable, and costs about \$15. ***You must have your goggles at the start of your second lab meeting during week 1 (September 24 or 25, depending on your lab section).***

CALCULATOR: You will need a simple scientific calculator. Basic models can be purchased at office supply stores for about \$10-\$15. See me if you have any questions.
Programmable calculators cannot be used during quizzes or exams.

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – General Chemistry I

<http://www.ltconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

IV. STUDENT LEARNING OUTCOMES:

As evidenced by quiz, examination, and/or lab report scores, CHM101, students will be able to:

1. Describe sub-atomic particles; interpret molar mass, atomic mass, atomic number and charges associated with molecules, atoms and ions in terms of these sub-atomic particles.
2. Perform calculations associated with percent composition, molecular and empirical formulas of compounds.
3. Perform stoichiometry calculations including limiting reactant, percent yield, and enthalpy considerations for solids, gases and aqueous reactants and products.
4. Predict products for acid-base and precipitation reactions; write chemical equations for these reactions.
5. Write names and formulas for simple inorganic compounds.
6. Correlate macroscopic properties of gases to the Kinetic Molecular Theory.
7. Perform basic laboratory tasks to obtain accurate and appropriately precise results; interpret experimental results to draw appropriate conclusions.

V. ACCOMODATIONS FOR STUDENTS WITH DISABILITIES:

Lake Tahoe Community College and I are committed to accommodating students with disabilities. The Disability Resource Center (DRC, room A-205, ext. 249) facilitates accommodations for learning, psychological, hearing, visual and communication disabilities as well as health disorders and mobility limitations. Students requesting any special services should contact the DRC.

VI. SCHEDULE

Lecture Topics, Quizzes, & Exams

I am *planning* to cover chapters 1–6+18 in the text; we may not cover 100% of this. A (constantly updated) class schedule that includes lab experiments, lecture topics, quiz and exam dates can be found at:

<http://www.ltconline.net/wallace/>

Exam Dates

Exam #1* (ch. 1-3).....	Wednesday & Thursday, October 22-23
Exam #2* (ch. 4-6).....	Monday & Tuesday, November 24-25
Exam #3 (ch. 18).....	Monday, 12/8 @ 10:00-11:50am
Final Exam (ch. 1-6).....	Monday, 12/8 @ 10:00-11:50am

* *The midterm exam dates are tentative.*

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – General Chemistry I

<http://www.ltconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

VI. SCHEDULE (*continued*)

Notes regarding missed exams:

Makeup exams will only be given for "serious and compelling reasons"; see me immediately if you miss - or are going to miss - an exam. Serious and compelling reasons for making up an exam include situations like illness or hospitalization, family emergencies, serious accidents, etc.

Your makeup exam score will be no higher than the average of your other exam scores.

Other Important Dates:

Last day to drop classes and receive a refund.....	Friday, October 3
Last day to drop with no record.....	Friday, October 17
Last day to drop with a "W" grade.....	Friday, November 7

Other VERY Important Dates:

Veteran's Day Holiday	Monday, November 10
Thanksgiving Holiday, campus closed	Thursday - Friday, November 27-28

VII. GRADING

Approximate Overall Point Breakdown

Exams (3 @ 100 points each)	300
Final Exam	100
Quizzes* (~7 @ 25 points each; lowest score dropped)	~150
Laboratory* (~12 @ 10 points each; lowest score dropped)	~110
Practice Exercises* (~7 sets @ 10 points each; lowest score dropped)	~60
<hr/> TOTAL	<hr/> 700

*The total number of quizzes, experiments, and/or practice exercise sets may vary by about ± 1 .

Overall Grading Scale

A (90.0–100%), B (80.0–89.9%), C (70.0–79.9%), D (60.0–69.9%), F (<60.0%)

Quizzes

Each quiz will be worth 25 points. Your lowest quiz score for the quarter will be "dropped".

Practice Exercise Sets ("Homework")

Each chapter set of practice exercises will be worth 10 points (pro-rated for all exercises in that chapter). Grading will be semi-honor system and based on the number of exercises completed in that chapter; I will explain this in greater detail later. The lowest "homework" score will be dropped.

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – General Chemistry I

<http://www.ltconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

VII. GRADING (*continued*)

Laboratory Reports

Your laboratory instructor may provide their own syllabus and/or laboratory policy/policies that may be different from those listed in this syllabus. If your lab instructor does not provide their own policies, these apply.

Each lab report will be worth 10 points. Your lowest lab report grade for the quarter will be “dropped”.

Each lab report is worth 10 pts (max.) and will be graded on the following basis:

A **10-point** Lab Report will have the following attributes:

1. extra effort and high-level thought are evident throughout
 2. proper significant figures are used throughout
 3. proper units are used throughout
 4. calculations are shown
 5. calculated results are correct
 6. answers are correct (or at least reasonable); “unknowns” are correctly identified (*2 points*)
 7. unreasonable results are noted and an explanation is attempted
 8. conclusions logically follow from experimental results
 9. lab procedures have been followed exactly
 10. written answers are detailed and thorough; complete sentences are used; work is legible
 11. student name, course number, section number, date, etc. is included on each page
 12. report is turned in on either original lab manual pages (cut or torn neatly from the book) OR photocopied pages from the manual
 13. only the pages that are clearly meant to be included are included with the final report; introductory text is NOT included with the final report
- In general, 1 point will be deducted from the 10 points for each error or omission listed above.
 - A complete lab report, no matter how many errors, will be assigned a minimum of 6 points.
 - **Zero points** will be assigned to laboratory reports that are substantially incomplete.
 - ***Students who arrive late to their scheduled lab meeting will have the following points deducted from that week’s lab report: 1st offense = -0 points, 2nd offense = -1 point, 3rd offense = -2 points...***

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – General Chemistry I

<http://www.ltconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

VIII. POLICIES, DEFINITIONS, & ADDITIONAL DETAILS

Tips for success in this class

1. Form small study groups and work together to master this material.
2. Work on this class a little bit every day. Spend at least 1 hour per day doing some combination of the following: reading the text, reviewing your notes, working study problems, studying with classmates, and/or meeting with your instructor.
3. Read the text and work example problems before attempting assigned homework problems.
4. Stay ahead of the lecture with your reading.
5. Complete and turn in every item that has a point value: lab reports, quizzes, exams, etc.
6. Participate in the lectures and ask questions.
7. Be honest with others and yourself. If you really hate this kind of work, don't complain or cheat, but instead find something that you do like to do. Life is too short to be miserable.

Practice Exercise Sets ("Homework")

"Homework" problems will be collected about every 10 days; each exercise set will consist of the problems assigned for that chapter. The assigned problems and due dates will be listed on the class schedule; follow the CHM101 link from:

<http://www.ltconline.net/wallace/>

I have placed a copy of the complete solutions guide for our text on reserve in the library.

Quizzes

Chemistry is most successfully tackled in small, regular bites through continuous studying; for most students, "cramming" immediately before an exam is not effective. Therefore, most weeks you'll be given a brief quiz. Quizzes will usually be administered at the end of the lecture period on Wednesdays. The quiz topics will be the items covered in the previous week's lecture; I will explicitly indicate the text sections associated with each quiz via the class Web page. You will be allowed 20 minutes to complete each quiz. ***You may not use programmable calculators during exams or quizzes.***

Exams

Exams will be administered during one of the lab meetings during the week scheduled. You will be given 2 hours and 15 minutes (the full laboratory meeting time) to complete each exam. Exams will be closed-notes, closed-text, but I will provide you with a periodic table, constants, and some formulas. ***You may not use programmable calculators during exams or quizzes.***

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – General Chemistry I

<http://www.ltcconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

Laboratory Policies & Safety

Your laboratory instructor may provide their own syllabus and/or laboratory grading policy/policies that may be different from those listed in this syllabus. If your lab instructor does not provide their own policies, these apply.

We will review safety, policies & procedures during our first lab meeting, but some of the basics are:

- 1. Whenever ANYONE in lab is working with chemicals, glassware, or equipment of any kind, you are required to wear safety goggles; no other type of eye protection is acceptable. Students who do not comply with this will be sent away from the lab.**
- The first few minutes of the lab meeting will often be dedicated to a discussion of safety considerations. **Students who arrive late – even a few minutes – may be sent away from the lab.**
- Students who habitually arrive late to their scheduled lab meeting will have the following points deducted from that week's lab report: 1st offense = -0 points, 2nd offense = -1 point, 3rd offense = -2 points...**
- You do not need to complete the "Advance Study Assignment" in your lab manual before your lab meeting time, however, you will be required to complete this – and have your instructor check your work – before you begin the experiment. I'll explain this in more detail in lab.
- Laboratory reports are due at the end of the laboratory period specified by the online class schedule or your lab instructor; *no late work can be accepted.*
- You are encouraged to use a pencil to write your lab reports.
- You will most often be encouraged to work in small groups of 2 (or sometimes 3) students (*not 5 or 6 or 12 students*), but each student will turn in their own individual laboratory report.
- You must pass the laboratory to pass the class overall. Missing 3 or more laboratory meetings will be grounds for failing the class overall unless special arrangements have been made for highly unusual situations. See me immediately if you are going to miss 3 lab meetings.

LAKE TAHOE COMMUNITY COLLEGE

CHM 101 – *General Chemistry I*

<http://www.ltcconline.net/wallace/>

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

Academic Dishonesty ("Cheating")

I take cheating very seriously, and I will pursue the strictest penalties for clear-cut cases of cheating. However, I will assume that you are innocent until proven guilty.

1. Cheating will be defined as, but not limited to (1) using any method to copy another's work on an exam or quiz; (2) directly copying another student's homework assignment or laboratory report; (3) using any method other than your own honest efforts to complete and earn grades for exams, quizzes, outside-of-class assignments or laboratory reports.
2. The following activities are NOT cheating: (1) collaborating with other students to complete laboratory reports or "homework" assignments; (2) working with other students to study for exams or quizzes.

Disciplinary actions for cheating will be per the "Student Rights and Responsibilities" section of the current LTCC catalog and are outlined below:

OBVIOUS CHEATING:

1. The first incident of obvious cheating will result in recommendation (to the Vice President, Academic Affairs and Student Services) of **disciplinary suspension from the class** for the remainder of the term. The student will be assigned a grade of "F" for that quarter.

BEHAVIOR OR EVIDENCE OF POSSIBLE CHEATING:

1. The first incident that appears to be cheating will result in a written **warning**; a copy of this warning will be sent to the dean.
2. A second suspicious incident will result in recommendation (to the Vice President, Academic Affairs and Student Services) of **disciplinary suspension from the class** for the remainder of the term. The student will be assigned a grade of "F" for that quarter.

Fall 2008

REVISED Sept. 20, 2008

LECTURE:	sections 1, 3 & 4:	M & W	11:00am-12:50pm	A-208	(Wallace)
LABORATORY:	section 1 (101.1):	Tu & Th	3:30-5:45pm	D-103	(Wallace)
	section 3 (101.3):	Tu & Th	9:05-11:20am	D-103	(Oleson)
	section 4 (101.4):	M & W	1:05-3:20pm	D-103	(Wallace)

Relatively Frequently Asked Questions (*only* by students at LTCC):

I taught at Butte Community College, CSU Chico, and at the high school level for about 10 years before coming to LTCC in 2005. Here are some questions (and associated answers) that I have only heard from LTCC students:

Q: Can I make-up a lab experiment?

A: No.

Q: Can I make-up a quiz?

A: No.

Q: Can I take a quiz or exam early (or late)?

A: No.

Q: Can I take the final exam at a different time?

A: No.

Q: Is there extra credit available in this class?

A: No.

Q: I'm the hardest working student in the class; don't I deserve an "A"?

A: While your efforts are admirable and will serve you well beyond General Chemistry, no.

Q: Will you show us an example of every possible type of question that could be on an exam?

A: No. (It's impossible.)

Q: Is this going to be a fun class?

A: No. However, mastering chemistry (or any subject, for that matter) is extremely satisfying.

Over the past 12 years or so, I have received the following question from all – not just LTCC – students:

Q: I have or had a family emergency / major car accident / serious illness / extraordinarily important extracurricular event / etc. that is going to impact my academic performance; may I have special arrangements?

A: Of course. Please come see me as soon as possible if you find yourself in any of these situations. (Note that a vacation is not a serious or compelling reason for special arrangements.)
